

Available authorizations

Scopes are used to grant an application different levels of access to data on behalf of the end user. Each API may declare one or more scopes.

API requires the following scopes. Select which ones you want to grant to Swagger UI.

Bearer (OAuth2, authorizationCode)

Authorization URL: `https://accounts.google.com/o/oauth2/v2/auth?scope=profile email&access_type=offline&response_type=code&redirect_uri={redirect_uri}&client_id={google_id}`

Token URL: `https://oauth2.googleapis.com/token?code={code}&client_id={google_id}&client_secret={google_secret}&redirect_uri={redirect_uri}&grant_type=authorization_code`

Flow: authorizationCode

client_id:

client_secret:

Scopes: [select all](#) [select none](#)
